

# The Advanced Preflight & Team Preflight Contest

The Advanced Preflight concept takes a deeper look at the preflight inspection. It's not good enough to "kick the tires and light the fire", "first one airborne is lead & we'll brief on guard"!! Those days are over and for good reason, it didn't work as envisioned. We will take another look at the common preflight and the 31 items an owner/operator is allowed to mess with before an A&P intervenes. We will also hold a team preflight contest to see how many items you really look at during your preflight.

**Directions:** The meeting hangar is on the west side of airport. From Highway 95 turn left on Schweitzer Cutoff Road (Wal-Mart/Burger King/Conoco). Go west 1/2 mile to the "T" (at Fairgrounds corner). Turn left on N. Boyer Ave. Turn right on Woodland Dr. In 400 ft. turn left into the airport on the north service entrance to Omni Park. Turn slight right onto Flightline Way (taxiway) The EAA Hanger is the second hanger (white); on the left-3722.

## A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
